

A6 – ANFORA Outreach Evidence

Educational outreach records supporting the Mid-Validation Report

Evidence summary

Record	Date	Relevance	Status
A6.1 – Direct outreach to ETPOEP Córdoba	27 Aug 2026	In-period sent email requesting dissemination to educational professionals and guidance teams.	IN-PERIOD
A6.2 – Direct invitation to CEIP Barahona de Soto	27 Aug 2026	In-period sent invitation addressed directly to the school leadership team.	IN-PERIOD
A6.3 – Interest response from IES Sierra de Aras (Lucena)	2 Sep 2026	Post-cut-off corroborating evidence confirming recipient interest; not used to change reporting-period indicators.	POST-CUT-OFF
A6.4 – Representative June campaign record	24–25 Jun 2026	In-period sent-email records verify outreach to more than 16 institutions and document some delivery failures.	IN-PERIOD

Scope note. This annex compiles representative outreach records supplied for external submission. The 24–25 June mass campaign is represented in A6.4; the underlying sent-email and delivery records remain in controlled project storage. Post-cut-off evidence is clearly labelled and is not used to change indicators for the 1 March–31 August 2026 reporting period.

A6.1 – In-period outreach record

Direct dissemination request to ETPOEP Córdoba

Date: Thu, 27 Aug 2026 – 11:01:58 CEST

From: Jesus Manuel Vazquez Herrera – Evenor-Tech

To: etpoep.dpco.ced@juntadeandalucia.es

Subject: Dissemination among educational professionals | Free ANFORA webinar

Source: Original sent-email record (.eml) supplied with the submission evidence

Email content

English translation of the original Spanish sent-email text.

Good morning, ETPOEP Córdoba team:

Evenor-Tech is contacting you to share a free online activity for educational professionals and centres and to request your collaboration in disseminating it.

On 3 September 2026 at 12:00, the webinar “ANFORA: Water Footprint Management” will take place.

For approximately one hour, we will present ANFORA, a digital platform developed within the European RURACTIVE project (Horizon Europe) that makes it possible to explore the water footprint associated with food, diets and recipes.

The session aims to introduce practical questions related to sustainability, water management, food and consumption habits to the educational sphere, offering a digital tool that can support educational and awareness-raising actions.

Date: 3 September 2026 **Time:** 12:00 **Format:** Online – Google Meet

ANFORA platform: <https://anfora.evenor-tech.com/>

Participation is free of charge.

Given ETPOEP's coordination with Educational Guidance Teams and Guidance Departments, we would be grateful if you could forward the invitation to professionals or teams for whom it may be of interest.

Thank you very much for your collaboration.

A6.2 – In-period outreach record

Direct invitation to CEIP Barahona de Soto

Date: 27 Aug 2026

From: Jesus Manuel Vazquez Herrera

To: 14004476.edu@juntadeandalucia.es

Subject: Invitation for CEIP Barahona de Soto | Free ANFORA webinar – 3 September

Source: Sent Gmail record supplied/verified for the Mid-Validation evidence review

Email content

English translation of the original Spanish sent-email text.

Good morning, CEIP Barahona de Soto management team:

Evenor-Tech is contacting you because we believe this activity may be of interest to your teachers and to the educational work carried out in Primary Education.

On 3 September 2026 at 12:00, we will hold the free online webinar “ANFORA: Water Footprint Management”, an initiative developed within the European RURACTIVE project (Horizon Europe).

During the session, we will present ANFORA, a digital platform for exploring and analysing the water footprint associated with food products, diets and recipes, providing a practical introduction to sustainability, responsible water use and environmental education.

The session is specifically aimed at teachers and educational centres and will last approximately one hour.

Date: 3 September 2026 **Time:** 12:00 **Format:** Online – Google Meet

ANFORA platform: <https://anfora.evenor-tech.com/>

Participation is free of charge.

If you consider it of interest, we would be grateful if you could forward this invitation to teachers and the rest of the school community.

Thank you very much for your attention and collaboration.

A6.3 – Post-cut-off supporting evidence

IES Sierra de Aras (Lucena) – recipient interest response

Date: Wed, 2 Sep 2026 – 13:07:23 CEST

From: Representative of IES Sierra de Aras (identity minimised)

To: info@evenor-tech.com

Subject: ANFORA: WATER FOOTPRINT MANAGEMENT

Source: Original received-email record (.eml) supplied with the submission evidence

Response excerpt

Reporting note. This reply is dated after the 31 August reporting cut-off. It is included only as corroborating evidence of subsequent interest and is not counted as an in-period participation result.

Good afternoon.

I would like to attend the webinar/course.

Thank you.

Personal name, phone and address details from the original record are intentionally omitted for data minimisation.

A6.4 – In-period representative outreach evidence

June 2026 mass outreach campaign

Campaign dates: 24–25 June 2026

Scope: Sent-email records verify that the June outreach campaign exceeded 16 institutions.

Delivery status: The retained delivery records also document some delivery failures.

Source: Sent-email records and related delivery-failure notices retained in controlled project storage.

Validation note

This is a representative evidence summary prepared from the retained records; personal recipient details are not reproduced.

This evidence verifies the campaign dates and minimum scope only.

No higher exact recipient count is claimed.

Failed deliveries are not treated as successful contacts.
